Examiner's Statement of Reasons for Allowance

Claims 1-41 are allowed over prior art.

The following is an examiner's statement of reasons for the indication of allowable claimed subject matter.

Claim 20 (an example of broader claim) is directed to a secure repository comprising: a first set of computer executable instructions which converts encrypted data into decrypted data by applying "*a cryptographic key to said encrypted data without said cryptographic key being accessible to said first set of computer executable instructions*"

Prior art of record does not teach or fairly suggest applying a cryptographic key to data without said cryptographic key being accessible to said cryptographic algorithm and or computer instructions recited in independent claims 1, 9, 20, 25 and 31.

None of the prior art of record, either taken by itself or in any combination, would have anticipated or made obvious the invention of the present application at or before the time it was filed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Depended claims 2-8, 11-19, 21-24, 26-30, and 32-41 are also allowed by virtue of their dependencies.
